

Natural Bamboo

These made to measure bamboo blinds can be adapted to suit a number of external applications including windows, verandas, roofs and carports. Creating an amazing feel in and around all outdoor living areas, these blinds will block the glare and keep your area cool.

The skin of the bamboo slats protects the blind from all weather conditions making them extremely hardy. Their natural charm creates a smart, polished look for your exterior furnishing. In an age where sustainability is so important, Natural Bamboo is an excellent choice.

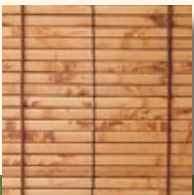

Tortoiseshell

A smooth operating, quality blind, Tortoiseshell roll ups will last for years. Their attractive, burnt pattern makes them a popular choice for interior and exterior décor.

Used extensively on balconies, deckings and other outdoor living areas, these blinds will provide protection from the harsh Australian sun as well as wind and rain.

Blind features include:

- Made To Measure
- Blinds for Interior and Exterior Use
- Blockout & Light Filtering Materials
- Natural, Stained, Lacquered & Custom Paint Options
- Stained Colours – Teak, Golden Oak & Walnut
- Synthetic Stitching
- Quality Locking Pulleys
- Nylon Operating Cords
- Solid Timber Headrail with Valance
- Easy to Install, All Fittings Provided
- 12 Month Warranty

Discover the Style and Versatility of Bamboo Blinds

The natural alternative for weather protection and light control, both inside and outside your home.

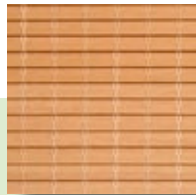

Interior Blinds

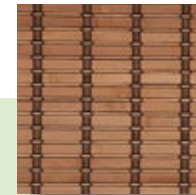

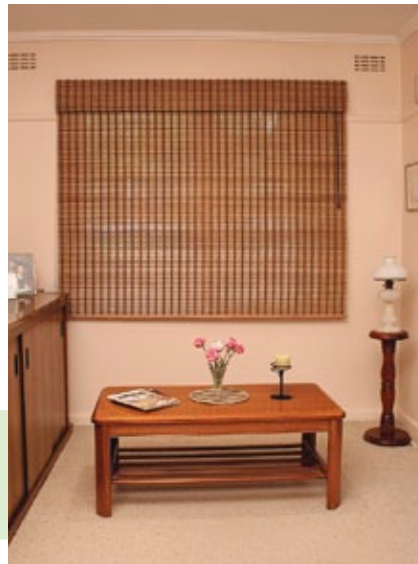

Woven Timber

Our Woven Timber blinds create a casual but classy window furnishing. This material has excellent insulating properties as well as providing privacy. It is also a very durable material which means that it will last for many years.

With such an array of colour options to choose from with this material there is something to suit every room in the home.

Brown Combi

Brown Combi blinds are a striking addition to any home. Made from a combination of bamboo slats and matchsticks, these blinds add character and sophistication to any room.

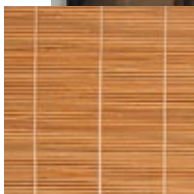

Used frequently in living, dining and laundry areas, Brown Combi is a natural and low maintenance alternative for your window coverings.

† Colour Options: natural, stained, painted and lacquered * Overlap only

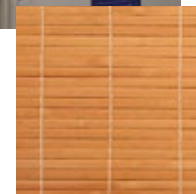

Matchstick

A simple but stylish blind that is suitable for many applications including sunrooms, kitchens and living areas. The fine slats of matchstick gently filter your view while reducing heat and glare.

Matchstick blinds can be colour co-ordinated with almost any décor in the home. A low maintenance option that will endure the test of time.

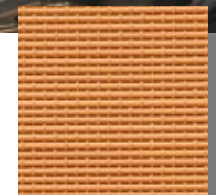

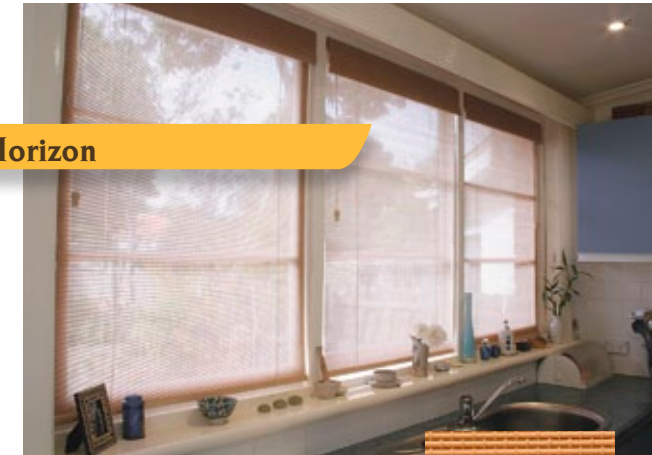

Raw Bamboo

Versatility springs to mind when choosing Raw Bamboo. It can be colour co-ordinated to suit almost any décor, coming in a natural, stained, painted or lacquered finish.

Raw Bamboo is perfect for a sunroom, office or living area. It creates a sophisticated, relaxed look and provides an affordable, low maintenance window covering.

Horizon

The light filtering effect of Horizon maintains your view whilst blocking the glare of the sun, protecting your furnishings from damaging rays. Horizon blinds are suitable for both interior and exterior use. Made from PVC material and available in coffee and camel colours.

An Overlap version, creating a blackout effect, is available in camel. This is a popular alternative to other blackout blinds for wet areas such as kitchens, bathrooms and laundries.
